Subject: Recommendation for Latasha Hatcher

To Whom it May Concern:

I am pleased to write this recommendation letter for Latasha Hatcher. I had the pleasure of managing her from January 2023 to January 2025 at MessageGears, where she served as Senior UX/UI Engineer.

During our time working together, I was consistently impressed with Latasha's dedication, collaboration, and eagerness to learn. She demonstrated exceptional product design skills, which greatly contributed to our team's goal of building a new design system. Her aptitude for building strong relationships and managing stakeholder expectations ensured her projects were always delivered on time and to the highest quality.

One of her most notable achievements was redesigning the MessageGears' campaign reports dashboard. Her ability to effectively distill complex requirements into a clear and understandable format was instrumental in quickly showing return on investment for customers' email and mobile campaigns

Beyond her technical skills, Latasha is a highly motivated and dependable individual who fosters a positive work environment. She is always willing to go the extra mile to support the team and takes initiative in challenging situations.

I have no doubt that Latasha will be a valuable asset to your organization. I strongly recommend her for any UX or product design positions without reservation. Please feel free to contact me at shellymwolfe@gmail.com or +353 86 400 6107 if you require any further information.

Sincerely,

Shelly Wolfe
Senior Product Design Manager
